Dear valued customer,

The USDA has issued guidelines for importing feline and canine material into the United States. To ensure timely delivery of your samples, we recommend following these instructions:

1. A declaration statement has been included in this package. Please read over the declaration to ensure all of the statements are correct regarding your samples.
2. Sign and date the declaration statement.
3. Place the statement into the envelope we have provided for you. Do not seal the envelope.
4. Indicate on the outside of the envelope that "Import Declaration for Feline or Canine Material are included in this envelope".
5. Attach the unsealed envelope to the outside of your package.

If you have any further questions regarding these recommendations, please contact us at cvm-cardiacgenetics@ncsu.edu.

Thank you,

Veterinary Cardiac Genetics Laboratory

Import Declaration of Feline and Canine Material

In accordance with USDA Guideline 1102: Feline and Canine Material:

This package contains **canine** buccal swabs and/or blood samples.

The samples do not contain any other animal-derived material (i.e. do not contain any material originating from livestock or poultry).

The animals from which the material was derived were not inoculated with or exposed to any infectious agents of USDA agricultural concern.
